way, and it barrows your inmost soul to conemplate the result. In fact you have 100 much brag and too little do , too much beast and too few voters Morally, religiously and acciatly we like you, but politically you are an unreliable lot, and republicans will hireafter rely upon themselves. They have stood shoulder to shoulder this year and you have had your "straight" democratic ticket and are beaten by majorities ranging from 400 to 1300. So you see very clearly where your great mistake hes. It is in not keeping faith even in political matters. For that missale you have been tarribly punished by the very who toined hands with you two years ago, they have helped to roll up these enermone mejorities against you because of your planic faith in 1878. Put on your sackeloth, sit down and weep, and while you weep 179 MANAGER to grow wiser and better. Your punishmen s great, but you deserve it THE DEMOCRATIC WAKE

The democrats of this city ought by this time to be able to bear defeat with calmness, but the slaughter last Monday was so terrific that they are perfectly furious and charge avery arime known to the decalogue against republicans. Nor does their rage stop with the infliction of their vituperation on the opposition. They roundly abuse their own county committee, their workers, their candidates and their organ. Like a den of makes stirred up with a stick, they strike first the stick, then at the vacant air, then in themselves until the whole writhing men is destroyed by its own venom. So our damo-cratic friends, aggravated by their overwholimonly seedd the republicans but growl and in many cases curse each other hat be cause of the result. Republicans do not like to be considered as the source of so much trouble, and we are glad that the demorate find so many objects un which to rent crate ind so many opaces on which to rent their rage in their own party. The very thinnest thing, however, is the charge that the republicate won their victory by the use of money, when everything shows that the since was on the other foot. In the forenooical Fastest Time on Record dection day about four-fifths of the votes car were republican; there was the u tmost ou'et about the politing places, the voters were largely composed of well known citizens whom no one would think of approaching with money In the afternoon and toward evening the riff-raff and floating popul tron person to acte mode cometonera ount of ballots began of course the last a otes cast were the first counted. Now it is well known that of the first two or three hundred otes counted by the officers of the election in the precincis where the fight was flercest about three to one were democratic, she wing that the rabble, which voted in the afternoon, organ of this city makes wholesale charges of on, in which it implicates den as well as republicans, but fails to go into de-tails to indicate whether it considers one party or the other as most to blame. In fact, the organ's wall is as senseless as it is do sful.

A letter signed by J. H. Albert, and a nard signed by Meere. Ladd & Bush were published in the Standard last Sunday and Monin this county, but as we considered them only as an election earing duige, we paid little or no attention to it. As a posteoript to the card was the following . The above was sent THE ORBOOKLES AS a renly to G.C. "ears' card which appeared in THE ORBOO start in April last, but THE ORBOOKLES as a label a BUSH.

As a matter of fact the postsoript was tutrue : se a matter of httpiness it was nafair. and as a political track it was beneath the dignity of the men whose names were attached to it nor do we balleve that its nonlication was procured by them or with their Some underling overstopped the boundaries of propriety of good sense and sound judgment in the matter. It jus-noe to Tex Openionian we will say that than found to publish the card referred to, ( s can any one having any currosmy in the matter who will call at this office.

, In 1878, the democrate in congress still sore over the defeat of Tilden, and keeping up the cry of "fraud" for electioneering bunon the subject and passing them, such as de-claving Tilden and Handricks elected. This being under consideration, Gen. Garfield like other statesmen, became tired of the waste of time by such trailing contended that the mat-t r had been prevocably settled by the two houses of congress, and that congress aught to let the cutet which had been restored throughout the country continue, coucleding, however by defying the democracy to andertake to do what they had so long threecened, to depose Hayes and unstall Tilden and said I am glad that at last, after this occoding has so long teen hanging over the count we now know what they are seeking to de Hor some weels I have been inclined to say to these con temen, in the language of Hamlet

The tite and sickness: the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dill, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sen sation of having left undone some-thing which ought to have been done. A slight, dry cough is semetimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exer-cise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases
